

bachmaier® Das Leben hören.

Ramsau, April 2019. The bachmaier GmbH & Co. KG, based in Ramsau, in the Bavarian region of Berchtesgaden, is a developer, manufacturer and service provider for products related to the ear. With a total of 55 employees, the company has been developing and producing custom-made products for the hearing aid industry, the hearing protection industry and the music industry for over 30 years.

Among other things, bachmaier® is the only manufacturer in the world to produce its entire range of hearing protection products itself. The company's own In Ear products (HEAROS) are used by many well-known musicians on stage and by military or combat pilots.

As a quality-conscious, family-run company, independence, sustainability and a sense of responsibility as well as intuition are part of the corporate philosophy. The driving force behind bachmaier® is the will to make the tried and tested even better and, at the same time, to discover and implement new things. From the idea, through development and the test phase, to the finished product, the company always follows the guiding principle: Aesthetic. Comfortable. Functional.

Meanwhile, bachmaier® maintains manufacturing facilities in Germany and Hungary and supplies professional equipment for acousticians, hearing protection manufacturers and earmold laboratories in over 50 countries worldwide.
