

Company succession at bachmaier®

Ramsau, January 29, 2020. After 33 years at the helm of bachmaier®, Bernd Kubicke is taking his leave as managing partner. As his successor, his son Fabian Kubicke will take over the management of the company on 01 January 2020.

Bernd Kubicke has left a lasting impact on the company with his commitment and passion for hearing acoustics products. bachmaier® has grown from a small acoustics retail store to an independent company and is now a developer, manufacturer and service provider for products related to the ear.

For more than ten years Fabian Kubicke has worked together with his father for and on the company bachmaier® and in the last years also managed it together. All decisions made during these years were geared towards a regulated handover of the company, so that the success story of the family business can be seamlessly continued. "It fills me with pride to take on this responsibility and to lead the family business bachmaier® into a successful future!", says Fabian Kubicke, who will continue to be supported by Barbara Grassl as commercial manager. Bernd Kubicke will continue to be available to the company in an advisory capacity.

The company succession also entails a change in the corporate form: the original partnership bachmaier GmbH & Co. KG with the limited partners Bernd and Fabian Kubicke was transformed into the corporation bachmaier GmbH - the sole shareholder and at the same time managing director is Fabian Kubicke. All rights and obligations of bachmaier GmbH & Co. KG were taken over.
